want to thrash thru the game you can

want it so its hard(ish) and you might fail use self control and dont use or limit your use of the extra deck V power ups

i think its balanced to cater to both sides you get enough cash to play how you want

its Solitaire ive played afew versions this does what it sets out to do pass time

ive found myself wanting one more game V try. This used to be a very nice game. It still is if you find a bunch of people to run your own server. But Multiplayer is an essential part of this games and that one is so dead.. Disappointing.

Episode 1 was much better in every aspect. Catacombs were pretty confusing and there were lots of backtracking (there is no map, not that I've found any).

. Cool variation a la Tetris or Dr. Mario. Worth the price of admission if you liked those games. No online multiplayer, though.. It's got airplanes.. more like cumboy tournament B^). I gotta say, so far I'm loving this game! I liked it enough that I bought a copy and sent it to the dudes at Steam Train. I hope they have as much fun playing it as I did :D. First I'm thankful for a football game on Pc and it's modestly fun. But the truth is that the Dreamcast, GC, Ps2, and Original XBOX will all provide you with better football gaming experience. I was wondering if this game was as good as NFL2K or maybe even NFL2K2, but honestly it's not. Sorry for this review but I have to be honest \u2639.

Game was one big level grind. I do not recommend.. Nice games, i like hidden object and horror story. Can't wait for part two... disappointing . . .

Looks good at first but lacks:

video codec support

subtitles support

common playlist files support. Solid WW1 mod for the game, and with the French joining in on the fray soon, it will be an almost complete World War 1 trench combat experience, and I say almost since there are a few nations such as Austro-Hungaria, the Ottoman Empire, Bulgaria, Belgium and the Russian Empire that are missing.

But given the game engine's complexity and time to make and implement assets properly, they've done a damn good job at it.

I just hope modders for this game received more support from Relic, sadly it's not the case.. pay for "unbeeping". and you have to turn it on every time.... I just payed for it... why do I have turn it on every time?. Additions:

Companion Goblin: Really fun to play with. New abilities of this goblin opens up new strategic choices you can take, especially useful in endless mode

Equipments: Not really useful, and not really fun either.

Encounters: Interesting, but they couldn't replace the best encounters of original game.

Campaign: Not really difficult if you figure out how to beat it. And there is no replay value at all.

In conclusion, if you play endless mode, you'll enjoy these new encounters, equipments, and most of all, the new companion. (I enjoyed this DLC for this reason, and that's the reason why I recommend this)

However, if you only play the campaign, within 2 hours you'll go through all of the contents this DLC offers you.

Also there is a bit of grind to get the token weapon, and the platinum version of the companion. (Which took about 3 hours for me). What a great game, I think I actually enjoyed it more now, then I did back in the day. I highly recommend this game to anyone who was gaming in the early 90s for a good dose of nostalgic rage (when then CPU player takes all your food\power ups!). The majority of the game is flawless but there are still issues which have not been addressed. Like for instance the online multiplayer being laggy to the point of unplayability and some of the achievements are inaccessible\broken. Apprantly there are "minor sound issues" and a friend has also mentioned "laggy menus" but I myself have not experienced these problems or neglected to notice them. All in all this is a great remake and was worth every penny, do yourself a favor and buy this classic masterpiece.
